---

Software engineer with 2 years of experience. Recently completed a master's degree. I am a practical developer who sees the big picture. I am thorough, self-motivated, and determined to learn something new every day.

## LANGUAGES & Frameworks

JavaScript, TypeScript, React, Java, C#, C++

## EXPERIENCE

SOFTWARE ENGINEER | MICROSOFT | BING ADS | 2017 - 2019

- Worked on the Accounts and Billing UI team on features including GDPR compliance, address validation, international tax law compliance, and payments.
- Delivered well-tested code using JS testing frameworks Mocha, Chai, Sinon, and Squire.
- Wrote React components for shared use across teams.
- Worked on a cross-functional team for end-to-end feature development.

FOUNDER & CEO | KICK COACH | 2011 - 2016

- Invented, designed, and manufactured a hardware product for soccer training.
- Produced a successful exit for shareholders by negotiating a licensing deal with a major sporting-goods manufacturer that brought the product to over 1,000 retail stores.

## EDUCATION

- M.S. Computer Science | 2020 - 2022 | Seattle University  
TA for Object Oriented Design.
- Certificate in Computer Science Fundamentals | 2019 - 2020 | Seattle University
- B.A. Business Administration, Entrepreneurship Focus | 2007 - 2011 | University Of Washington

## PROJECTS

BOBBINLAB

- <http://bobbinlab.com> | <https://github.com/SarahPappas/SewingPatternMaker>
- Collaborated with a friend to build a web app that allows users to generate a basic sewing pattern by tracing a photo of an article of clothing.
- Technologies: TypeScript, React, and HTML Canvas 2D
